OBJECTIVE

Software Engineer specializing in backend and cloud systems. Experienced in C#, Python, .NET Core and SQL, with expertise in AI/NLP, automation, and scalable solutions.

EXPERIENCE

Alstom — Software Engineer July 2025 – Present
Cairo, Egypt

- Developed backend services in C# and Python and built automation scripts to streamline workflows.
- Built and maintained React.js frontend applications with focus on performance and clean UI/UX.
- Engineered NLP/AI models for data classification and analytics.
- Implemented automated testing with Robot Framework, increasing coverage by 30%.
- Deployed, monitored, and maintained applications on Microsoft Azure, utilizing cloud services for hosting, storage, and scalability.
- Managed deployments on Azure, containerized with Docker/Kubernetes, and administered Red Hat/Linux and VMware environments.

Spark Systems — Back-end C# .NET Developer Jan 2025 – June 2025
Giza, Egypt

- Built scalable backend applications with ASP.NET Core MVC and Entity Framework Core using Clean Architecture and SOLID principles.
- Designed SQL/Entity Framework schemas, optimized queries, and implemented RESTful APIs with Postman.
- Managed authentication with ASP.NET Identity and maintained code quality using Git Flow in Agile Scrum teams.

Valeo — Embedded Software Engineer Intern July 2022 – Oct 2023
Smart Village, Egypt

- Developed multithreaded embedded software in C/C++ focusing on scalability and hardware abstraction.
- Validated bootloader, memory management, and communication drivers (CAN, SPI, UART), ensuring real-time performance (RTOS) and functional safety compliance.

EDUCATION

Bachelor of Computer Science, Helwan University September 2019 - July 2023
Graduated with Very Good (Honours)

- Led graduation project team to successful completion.

SKILLS

- **Programming Languages:** C, C++, C#, Python, JavaScript
- **Databases:** SQL Server, PostgreSQL, MongoDB
- **Frameworks & Tools:** ASP.NET Core, Django, Entity Framework, Git, Docker, Kubernetes, Robot Framework, Azure, VMware
- **Concepts:** Algorithms, Data Structures, System Design, Multithreading, Cloud Computing, AI/NLP
- **Languages:** English (Fluent), Arabic (Native), French (Basic)
